ABOUT ME

I am a motivated and ambitious graduate with a Bachelor of Science in Computer Science from Shah Abdul Latif University. During my academic journey, I developed strong analytical, problem-solving, and technical skills, along with a deep interest in innovation and emerging technologies. I am eager to continue my higher education in Europe to expand my knowledge, gain international exposure, and enhance my professional capabilities. I am a dedicated learner with excellent adaptability, teamwork, and communication skills, committed to contributing positively to the academic and professional environment.

Board of Intermediate and Secondary Education, Sukkur [2016 – 2018]

City: Sukkur | Country: Pakistan | Website: <https://www.bisesuksindh.edu.pk/>

WORK EXPERIENCE

Shah Abdul Latif University – Ghotki, Pakistan

Lecturer

[03/01/2026 – Current]

- **Subjects:** Object-Oriented Programming (OOP), Artificial Intelligence (AI), Network Security
- Deliver lectures and tutorials on core topics including OOP, AI, and Network Security, focusing on both theoretical concepts and practical applications.
- Design and develop course materials, assignments, and exams to evaluate student performance.
- Guide students in lab sessions, fostering hands-on learning in AI and security systems.

NEVTC – Pakistan

Course Instructor

[02/2026 – Current]

- Taught HTML, CSS, JavaScript, and Bootstrap to adult learners, with emphasis on building responsive, mobile-first websites.
- Led students through a final capstone project a fully functional multi page website resulting in a portfolio
- ready deliverable for each graduate.

Backend Developer

[01/2026 – 03/2026]

- Developed and maintained server-side logic for web applications using Python, Node.js, and RESTful APIs.
- Integrated and optimized databases, including PostgreSQL and MongoDB, to improve data handling and performance.
- Collaborated with front-end developers to implement responsive, user-friendly features and enhance application functionality.
- Conducted troubleshooting, debugging, and performance tuning to ensure efficient system performance.
- Contributed to team meetings and participated in code reviews to maintain high-quality development standards.

Code Alpha – Pakistan

Python Programming Intern

[06/2025 – 07/2025]

Completed a 1-month internship focused on Python programming and real-world application development.

Worked on modules involving data handling, automation, and basic ML implementation.

Gained experience in version control, collaborative coding, and code documentation.

LANGUAGE SKILLS

Mother tongue(s): Urdu

Other language(s):

English

LISTENING B2 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Microsoft Office Suite (Excel, Word, PowerPoint) / Microsoft Office / Internet and email communication / Social Media

PROJECTS

Smart Home Appliance System (Arduino-based)

- Designed and developed a home automation system using Arduino UNO, relay modules, and Bluetooth module.
- Enabled smartphone-based control of electrical devices through a custom mobile app interface.
- Developed PCB layout and documentation for project demonstration and deployment.

Campus Management System (CMS)

- Built a CRUD-based web application to manage students, courses, instructors, and attendance records.
- Designed database schema using MySQL to store user profiles, course catalogs, and enrollment data.
- Implemented authentication and authorization (Admin, Instructor, Student roles) using Sessions .

COMMUNICATION AND INTERNATIONAL SKILLS
