PROFESSIONAL SUMMARY

WEB DEVELOPER | PYTHON DEVELOPER | SOFTWARE ENGINEER

Fresh graduate with expertise in full-stack development, including front-end, back-end, and RESTful API integration. Proficient in PostgreSQL, MongoDB, and building responsive web applications. Strong communication and writing skills for effective collaboration and documentation. Eager to contribute to innovative projects and expand knowledge in emerging technologies like machine learning and cloud services.

TECHNICAL SKILLS

- Languages & Frameworks:** HTML, CSS, JavaScript, Node.js, Express.js, Python, React
- Tools & Platforms:** Git, VS Code, Firebase, REST API
- Web & CMS:** WordPress, Bootstrap
- Technologies:** Arduino, Machine Learning, Image Processing, Neural Networks

EDUCATION

Bachelor of Science in Computer Science Shah Abdul Latif University, Khairpur	CGPA: 3.88 / 4.0 2022 – 2025
Diploma in Information Technology (DIT) Trade Testing Board Sindh	Percentage: 79.2% 2021 – 2022
Intermediate, Pre-Medical IBA Community College Ghotki Completed in 2021	

PROFESSIONAL EXPERIENCE

Lecturer | Shah Abdul Latif University, Ghotki Campus January 2026 – Present

- Subjects: Object-Oriented Programming (OOP), Artificial Intelligence (AI), Network Security**
- Deliver lectures and tutorials on core topics including OOP, AI, and Network Security, focusing on both theoretical concepts and practical applications.
- Design and develop course materials, assignments, and exams to evaluate student performance.
- Guide students in lab sessions, fostering hands-on learning in AI and security systems.

Course Instructor | NEVTTC FEB 2026 – Present

- Taught HTML, CSS, JavaScript, and Bootstrap to adult learners, with emphasis on building responsive, mobile-first websites.
- Led students through a final capstone project a fully functional multi page website resulting in a portfolio ready deliverable for each graduate.

Backend Developer | Orthoplex Solutions Remote | January 2026 – March 2026

- Developed and maintained server-side logic for web applications using Python, Node.js, and RESTful APIs.
- Integrated and optimized databases, including PostgreSQL and MongoDB, to improve data handling and performance.
- Collaborated with front-end developers to implement responsive, user-friendly features and enhance application functionality.
- Conducted troubleshooting, debugging, and performance tuning to ensure efficient system performance.
- Contributed to team meetings and participated in code reviews to maintain high-quality development standards.

Python Programming Intern | Code Alpha Remote | June 2025 – July 2025

- Completed a 1-month internship focused on Python programming and real-world application development.
- Worked on modules involving data handling, automation, and basic ML implementation.
- Gained experience in version control, collaborative coding, and code documentation.

PROJECTS

Smart Home Appliance System (Arduino-based)

- Designed and developed a home automation system using Arduino UNO, relay modules, and Bluetooth module.
- Enabled smartphone-based control of electrical devices through a custom mobile app interface.
- Developed PCB layout and documentation for project demonstration and deployment.

Campus Management System (CMS)

- Built a CRUD-based web application to manage students, courses, instructors, and attendance records.
- Designed database schema using MySQL to store user profiles, course catalogs, and enrollment data.
- Implemented authentication and authorization (Admin, Instructor, Student roles) using Sessions .

AI Jannat Educational Foundation Website

- Built a full-stack responsive educational website with React and Bootstrap.
- Designed backend using Node.js and Express for secure form handling and data storage.
- Integrated SQL for database management and user records.

AI Virtual Assistant

- Developed a voice-controlled assistant using Python, NLP, and neural networks for device automation.

Fruit Disease Detection System

- Implemented a software tool using Machine Learning and Image Processing to identify fruit diseases via uploaded images.
